

EPN CONSULTING

Research and Innovation

Brief guide on our Professional Services

EU FUNDING

Investing in people, communities and a sustainable future.

Supporting projects that drive growth, innovation and inclusive across Europe.

- Evidence-based policies**
Shaping decisions that deliver real impact.
- Inclusive & accountable**
Ensuring transparency, participation and equal opportunities.
- Effective legislation**
Turning commitments into law and driving positive change.

Working together for a stronger Europe

POLICIES & LEGISLATION

Strong policies and effective legislation create a fair, transparent and sustainable Europe for all.

- WHY EU PROJECTS?**
 - Address real challenges
 - Bring partners together
 - Access EU funding
 - Create lasting impact

EU PROJECTS PREPARATION & MANAGEMENT

From idea to impact – we turn vision into successful EU-funded projects

EU PROJECTS CYCLE

- PROJECT IDENTIFICATION**
Identify needs, opportunities and funding calls
- CONCEPT & PARTNERSHIP**
Develop the idea and build a strong consortium
- PROPOSAL DEVELOPMENT**
Prepare a high-quality, competitive proposal
- EVALUATION & GRANT AWARD**
Respond to feedback and sign the grant agreement
- PROJECT IMPLEMENTATION**
Manage activities, partners, budget and timeline
- MONITORING, REPORTING & EVALUATION**
Ensure quality, report progress and measure impact

WE SUPPORT YOU

- Funding opportunities identification
- Consortium building
- Proposal writing
- Project management
- Financial management
- Monitoring & reporting
- Dissemination & impact

BETTER PROJECTS STRONGER EUROPE
Working together for a sustainable and inclusive future.

Consultancy on MOBILITY & TRANSPORT

Expert advice. Smarter solutions. Better mobility for people and a sustainable future.

OUR SERVICES

- STRATEGIC PLANNING
- SUSTAINABLE MOBILITY SOLUTIONS
- PROJECT IDENTIFICATION & MANAGEMENT
- FINANCIAL & FUNDING ADVICE
- STAKEHOLDER ENGAGEMENT

OUR EXPERTISE

- Public Transport
- Active Mobility
- Chips & Scooters
- Infrastructure
- Data & Innovation

OUR APPROACH

- ANALYSIS
- DESIGN
- IMPLEMENTATION
- OPERATION

BENEFITS

- Improve the liveability of our cities
- Reduce greenhouse gas emissions
- Improve the quality of life of our citizens
- Reduce the need for parking spaces

Working together for a stronger Europe

Consultancy on CIRCULAR ECONOMY

We help organisations and communities transform and embrace the opportunities through circular, innovative and sustainable solutions.

OUR SERVICES

EPN CONSULTING

Research and Innovation

Foreword

After four years of dynamic growth, we have reimagined our professional services portfolio spanning EU funding, policies, and legislation to EU projects preparation, management, and thematic consultancy in areas such as Mobility & Transport, Circular Economy, and Climate Change Resilience & Adaptation.

To better serve our clients, we have developed tailored service packages such as **STEPZERO®** and **SEARCH&FIND® (Basic and Advanced)** that provide a clear path to success, backed by thorough research and high-quality information gathered, elaborated, evaluated, and accurately delivered.

Our Unique Selling Propositions:

- **SUSTAINABILITY at the core of everything we do**
 - Reducing the carbon footprint of individuals and organisations
 - Improving quality of life
 - Contributing to the fight against Climate Change
- **Grounded in real EU PROJECTS experience**
 - Drawing on insights and best practices from past and ongoing EU-funded projects
 - Identifying the strengths and limitations of different solutions to deliver informed, tailored recommendations
 - Optimising both project outcomes and service costs
- **HUMAN expertise, not AI, rigorous and reliable**
 - Every search is conducted by our professionals across dozens of verified sources, independently double-checked
 - Guaranteeing the trustworthiness and accuracy of every deliverable

We look forward to engaging with you anytime to make a more sustainable Europe!

Dublin, May 2026

1. Consultancy on

EU FUNDING, POLICIES & LEGISLATION

EU FUNDING

Investing in people, communities and a sustainable future.

POLICIES & LEGISLATION

Strong policies and effective legislation create a fair, transparent and sustainable Europe for all.

Evidence-based policies

Shaping decisions that deliver real impact.

Inclusive & accountable

Ensuring transparency, participation and equal opportunities.

Effective legislation

Turning commitments into law and driving positive change.

INNOVATION

SUSTAINABILITY

INCLUSION

GROWTH

COOPERATION

Working together for
a stronger Europe

EPN CONSULTING

Research and Innovation

Service package no.1.1 – STEPZERO©

The CHALLENGE

Thousands of companies have compelling project ideas, but never make the leap into EU-funded projects. Whether it's a lack of clarity on the idea itself, uncertainty about budget, or unfamiliarity with European Commission rules, great opportunities go untapped.

The REALITY

Two traps derail companies:

- ▶ *Over-confidence*: underestimating the demands of EC calls, partner collaboration, quality contributions, administrative rigour;
- ▶ *Over-caution*: assuming the rules are too complex, the competition too fierce, and success out of reach.

Our SOLUTION

STEPZERO© cuts through the uncertainty. In a focused 1-, 2- or 3-day engagement, we sit down with you and jointly assess your project idea, its real-world viability, your team's readiness, and exactly what it takes to get you competition-ready.

No guesswork. No wasted time.

- **Format**: 1-day, 2-day, 3-day format
- **Target Clients**: SMEs

EPN CONSULTING

Research and Innovation

Service package no.1.2 – SEARCH&FIND© *Basic*

The CHALLENGE

You have an innovative idea, but does it qualify for EU funding? Where does it sit in the broader innovation landscape? And which funding stream is right for you? These questions stop most companies in their tracks.

The REALITY

The EU funding landscape is vast. Success depends on knowing your Technology Readiness Level (TRL), understanding what competitors are doing across Europe, and pinpointing the schemes that align with your development timeline and EU strategic priorities.

Our SOLUTION

SEARCH&FIND© *Basic* delivers a structured, pragmatic roadmap:

- We meet you and deep-dive into your idea, its field, its TRL today, and where you want it to be;
 - We scan the European and global market to benchmark your idea against the state of the art;
 - We model your timeline and funding needs, from current stage to a market-ready product or service;
 - We identify the EU funding schemes best aligned with your goals and the EU's strategic agenda;
 - We deliver a clear, actionable advisory document: which calls to target and why.
-
- **Format:** *fully customised* service
 - **Target Clients:** SMEs and large companies, Transport sector(Agencies, Operators, Motorways, etc.), Local Governments, Municipalities, Universities

EPN CONSULTING

Research and Innovation

Service package no.1.3 – SEARCH&FIND© *Advanced*

Everything in *BASIC*, plus:

For clients who want ongoing intelligence and competitive awareness, our *Advanced* tier delivers monthly reports covering:

- ▶ Competitor and sector actor mapping, nationally and internationally;
- ▶ EU news relevant to your field of operations;
- ▶ EU legislation and directives affecting your sector;
- ▶ Targeted actions from relevant EU Directorates-General;
- ▶ EU-funded projects whose results could benefit your work;
- ▶ EU events and conferences for business growth and networking;
- ▶ Market and technical developments shaping your sector.

Our Commitment: Every search is conducted by our professionals - not AI tools - across dozens of verified sources, double-checked, and delivered in polished monthly reports.

- **Format:** *fully customised* service with a 12-month minimum period contract with reports issued monthly
 - **Target Clients:** SMEs and large companies, Central & Local Government, Municipalities, Universities
-

2. Consultancy on EU PROJECTS PREPARATION & MANAGEMENT

Service package no.2.1 – EU PROJECTS PREPARATION

THE CHALLENGE

Winning EU funding is only possible if your proposal is outstanding. That means accurately completing EC templates, building a credible partner consortium, constructing a robust budget, and submitting everything through the right EC portal.

THE REALITY

For most SMEs, this process is a mountain. Time is scarce. Expertise is limited. And the cost of a poorly prepared bid is high; great ideas fail not because they lack merit, but because their proposals do.

OUR SOLUTION

We become your proposal team. We will guide you through every stage (writing, reviewing, editing), and consolidate contributions from multiple consortium partners into a single, coherent, high-quality submission. We ensure consistency across evaluation criteria and budget. Where needed, we support coordinators through the final submission process and help your consortium interpret the Evaluation Summary Report (ESR) and determine the best path forward.

- **Format:** *fully customised* service
- **Target Clients:** SMEs, large companies, Central and Local governments, Municipalities, Universities

Service package no.2.2 – EU PROJECTS MANAGEMENT

THE CHALLENGE

Running a funded EU project demands constant vigilance: delivering on schedule, producing quality outputs, managing partner relationships, controlling costs, and maintaining a productive dialogue with your EC Project Officer.

THE REALITY

Even experienced coordinators hit capacity. Deliverable quality can slip. Dissemination efforts can fall flat. Without the right network, valuable results never reach the audiences that need them.

OUR SOLUTION

EPN Consulting R&I steps in as your trusted management partner. We provide second-opinion review, proof-reading and supervision of deliverables, connections to related thematic projects across Europe, and support for dissemination events and outreach. Through our wide professional network, we amplify your project's reach and impact.

- **Format:** *fully customised* service
 - **Target Clients:** SMEs, large companies, Central and Local governments, Municipalities, Universities
-

3. THEMATIC AREAS of CONSULTANCY

Consultancy on MOBILITY & TRANSPORT

Expert advice. Smarter solutions. Better mobility for people and a sustainable future.

OUR SERVICES

- STRATEGY & PLANNING: We help you build effective mobility and transport strategies and plans.
- SUSTAINABLE MOBILITY SOLUTIONS: We develop innovative and scalable solutions tailored for your needs.
- PROJECT PREPARATION & MANAGEMENT: We support the preparation, implementation and management of mobility and transport projects.
- FUNDING & FINANCING ADVICE: We assist in finding opportunities and support you in accessing financial resources.
- STAKEHOLDER ENGAGEMENT: We help you develop and build partnerships for mobility and transport solutions.
- MOVING COMMUNITIES: Your trusted partner for mobility & transport consultancy.

OUR EXPERTISE

- Public Transport: Efficient, accessible and reliable systems.
- Active Mobility: Making walking and cycling for healthier cities.
- Clean & Smart Transport: Promoting sustainable and efficient mobility.
- Infrastructure: Safe, reliable and future proof solutions.
- Data & Innovation: Evidence based decisions to better mobility.

OUR APPROACH

- ANALYSE: Understanding the current situation and objectives.
- ADVISE: Identifying opportunities and solutions.
- IMPLEMENT: Facilitating implementation and delivery.
- IMPACT: Measuring progress and impact.

BENEFITS

- Increased mobility and accessibility.
- Reduced emissions and environmental impact.
- Cost efficiency and benefits for all stakeholders.
- Enhanced safety and quality of life.
- Conformance with EU policies and objectives.

OUR APPROACH

- ANALYSE: Understanding the current situation and objectives.
- ADVISE: Identifying opportunities and solutions.
- IMPLEMENT: Facilitating implementation and delivery.
- IMPACT: Measuring progress and impact.

BENEFITS

- Increased mobility and accessibility.
- Reduced emissions and environmental impact.
- Cost efficiency and benefits for all stakeholders.
- Enhanced safety and quality of life.
- Conformance with EU policies and objectives.

Consultancy on CIRCULAR ECONOMY

Building a sustainable future together.

We help organisations and communities transform challenges into opportunities through circular, innovative and sustainable solutions.

OUR SERVICES

- STRATEGY & ROADMAPS: We develop future proof circular economy strategies and action roadmaps.
- CIRCULAR BUSINESS MODELS: We help you create and manage sustainable, resource-efficient business models.
- PROJECT DEVELOPMENT: From idea to implementation, we manage projects from start to finish.
- FUNDING & FINANCE: We identify funding opportunities and support your financing needs.
- STAKEHOLDER ENGAGEMENT: We help you build partnerships and create value for all stakeholders.
- LET'S MAKE THE SHIFT: We help you make the shift to a circular economy.

OUR APPROACH

- 1. ASSESS: Understand the current situation and objectives.
- 2. PLAN: Develop a circular economy strategy and action plan.
- 3. ACT: Implement the strategy and action plan.
- 4. MONITOR: Measure progress and impact.
- 5. ADAPT: Refine the strategy and action plan based on feedback.

BENEFITS

- Reduce resource use and costs.
- Lower environmental impact.
- Increase resilience and performance.
- Reduce emissions and create business opportunities.
- Create positive impact for people and planet.
- Align with EU policies and sustainability goals.

WE WORK ACROSS ALL SECTORS

- AGRI-FOOD, MANUFACTURING, CONSTRUCTION, TOURISM, ECONOMY, HEALTH, ENERGY, RETAIL, EDUCATION.

OUR APPROACH

- 1. ASSESS: Understand the current situation and objectives.
- 2. PLAN: Develop a circular economy strategy and action plan.
- 3. ACT: Implement the strategy and action plan.
- 4. MONITOR: Measure progress and impact.
- 5. ADAPT: Refine the strategy and action plan based on feedback.

BENEFITS

- Reduce resource use and costs.
- Lower environmental impact.
- Increase resilience and performance.
- Reduce emissions and create business opportunities.
- Create positive impact for people and planet.
- Align with EU policies and sustainability goals.

Consultancy on CLIMATE CHANGE RESILIENCE & ADAPTATION

Building resilience today for a sustainable, climate-ready tomorrow.

OUR SERVICES

- CLIMATE RISK ASSESSMENT: We help you understand and assess climate risks and vulnerabilities for informed decision-making.
- ADAPTATION STRATEGIES & PLANS: We develop evidence-based adaptation strategies and action plans tailored for your context.
- INFRASTRUCTURE & NATURE-BASED SOLUTIONS: We help you design, develop and implement infrastructure and nature-based solutions for climate resilience.
- MONITORING, EVALUATION & LEARNING: We help you track progress, evaluate effectiveness and integrate learning into your adaptation plans.
- CAPACITY BUILDING & STAKEHOLDER ENGAGEMENT: We help you build capacity and engage stakeholders for inclusive and resilient outcomes.
- CLIMATE RESILIENCE STARTS WITH ACTION: We help you make it last.

OUR APPROACH

- 1. ASSESS: Understand the current situation and objectives.
- 2. PLAN: Develop a climate resilience strategy and action plan.
- 3. ACT: Implement the strategy and action plan.
- 4. MONITOR: Measure progress and impact.
- 5. ADAPT: Refine the strategy and action plan based on feedback.

WE SUPPORT

- WATER SECURITY: Strategic national to 30-year, floods and water scarcity.
- COASTAL & URBAN RESILIENCE: Protect communities and infrastructure from sea level rise and extreme events.
- HEAT & HEALTH: Reduce heat stress and protect public health and well-being.
- ECOSYSTEMS & BIODIVERSITY: Enhance nature's resilience and the services it provides.
- POLICY & FINANCE: Align with EU policies and secure funding for climate-resilient investments.

OUR APPROACH

- 1. ASSESS: Understand the current situation and objectives.
- 2. PLAN: Develop a climate resilience strategy and action plan.
- 3. ACT: Implement the strategy and action plan.
- 4. MONITOR: Measure progress and impact.
- 5. ADAPT: Refine the strategy and action plan based on feedback.

WE SUPPORT

Supporting implementation and delivery
- IMPACT**
Measuring results and driving continuous improvement

BENEFITS

- ✓ Improved mobility and accessibility
- ✓ Reduced emissions and environmental impact
- ✓ Cost-effective and efficient transport systems
- ✓ Enhanced safety and quality of life
- ✓ Compliance with EU policies and standards

MOVING COMMUNITIES. CONNECTING FUTURES.
Your trusted partner for mobility & transport consultancy.

PEOPLE FOCUSED **SUSTAINABLE SOLUTIONS** **RELIABLE PARTNER** **EU-WIDE EXPERIENCE**

SUPPORTING SUSTAINABLE MOBILITY ACROSS EUROPE

BUILDING A BETTER, MORE CONNECTED EUROPE THROUGH SMART MOBILITY.

Main aim to increase liveability in the urban environment ensuring convenient solutions to enhance mobility of individuals and goods.

Our goal is to incentivise the use of **public transport**, which has to be efficient, reliable convenient and comfortable.

Multi-modal transport solutions are key to ensure freedom of movement and they should also include innovative digital payment platforms.

Despite many studies proved that private cars stay parked for at least 95% of the time, we don't intend to criminalise the use of private cars. However, they have to be used rationally and innovative solutions have to be found.

- **Format:** *fully customised* service
- **Target Clients:** SMEs, Transport sector(Agencies, Operators, Motorways, etc.), Local governments, Municipalities

Service package no.3.2 – CIRCULAR ECONOMY

Consultancy on CIRCULAR ECONOMY

We help organisations and communities transform challenges into opportunities through circular, innovative and sustainable solutions.

OUR SERVICES

- STRATEGY & ROADMAPS**
We develop tailor-made circular economy strategies and action roadmaps.
- CIRCULAR BUSINESS MODELS**
We help you innovate and create sustainable, resource-efficient business models.
- PROJECT DEVELOPMENT**
From idea to implementation: we manage projects that deliver real impact.
- FUNDING & FINANCE**
We identify funding opportunities and support you in accessing financial resources.
- STAKEHOLDER ENGAGEMENT**
We facilitate collaboration and build partnerships for circular solutions.

LET'S MAKE THE SHIFT TO A CIRCULAR FUTURE.

CIRCULAR ECONOMY
Keep resources in use for as long as possible, extract the maximum value, and regenerate natural systems.

DESIGN
Design out waste and pollution

PRODUCE
Use resources efficiently

DISTRIBUTE
Deliver value with less impact

USE
Use, repair, reuse and share

COLLECT
Collect and return used materials

RECOVER
Recycle and recover materials

WE WORK ACROSS ALL SECTORS

AGRI-FOOD MANUFACTURING CONSTRUCTION TEXTILES ELECTRONICS PLASTICS PUBLIC SECTOR

BENEFITS

- Reduce resource use and costs
- Lower environmental impact
- Increase resilience and competitiveness
- Unlock innovation and new business opportunities
- Create positive impact for people and planet
- Align with EU policies and sustainability goals

Practical solutions. Measurable impact. Lasting change.

PRACTICAL SOLUTIONS MEASURABLE IMPACT TRUSTED PARTNER GLOBAL VISION, LOCAL ACTION

Together, we can build a more circular, resilient and sustainable Europe.

The linear economy is running out of road. The circular economy - where materials stay in use, waste is designed out, and nature is regenerated - is both a regulatory reality and a commercial opportunity. Circular economy is based on three principles, driven by design:

- ▶ Eliminate waste and pollution
- ▶ Circulate products and materials at their highest value
- ▶ Regenerate nature

We help companies evolve or reinvent their business models to align with circular principles, tapping EU funding, meeting emerging regulation, and unlocking new revenue streams. Our EU projects experience means we bring real-world best practices to accelerate your transition.

- **Format:** *fully customised* service
- **Target Clients:** SMEs and large companies, Municipalities

Service package no.3.3 CLIMATE CHANGE RESILIENCE & ADAPTATION

Consultancy on CLIMATE CHANGE RESILIENCE & ADAPTATION

Building resilience today for a sustainable, climate-ready tomorrow.

CLIMATE RISKS ARE REAL
Increasing impacts threaten communities, infrastructure, ecosystems and economies.

RESILIENCE IS ESSENTIAL
Adaptation strengthens our ability to anticipate, withstand and recover from climate impacts.

WE WORK WITH YOU
We help organisations and communities assess risks, build resilience and adapt for the future.

LOCAL SOLUTIONS, LASTING IMPACT
Tailored strategies that protect people, nature and assets while supporting sustainable development.

TOGETHER FOR A RESILIENT FUTURE
Working together today for a safer, fairer and more climate-resilient tomorrow.

OUR SERVICES

- CLIMATE RISK & VULNERABILITY ASSESSMENTS**
Identify current and future climate risks and vulnerabilities for informed decision-making.
- ADAPTATION STRATEGIES & PLANS**
Develop evidence-based adaptation strategies and action plans tailored to your context.
- INFRASTRUCTURE & NATURE-BASED SOLUTIONS**
Design resilient infrastructure and ecosystem-based solutions that deliver co-benefits.
- MONITORING, EVALUATION & LEARNING**
Track progress, evaluate effectiveness and strengthen adaptive management.
- CAPACITY BUILDING & STAKEHOLDER ENGAGEMENT**
Empower teams and engage stakeholders for inclusive and resilient outcomes.

OUR APPROACH

A CYCLE OF RESILIENCE
Assess, Plan, Act, Learn, Adapt.

- 1. ASSESS**
Understand climate risks and impacts
- 2. PLAN**
Co-create adaptation strategies and prioritize actions
- 3. ACT**
Implement solutions and build capacity
- 4. MONITOR**
Track progress and measure results
- 5. ADAPT**
Learn and adapt to changing conditions

WE SUPPORT

- WATER SECURITY**
Strengthen resilience to droughts, floods and water scarcity.
- COASTAL & URBAN RESILIENCE**
Protect communities and infrastructure from sea level rise and extreme events.
- HEAT & HEALTH**
Reduce heat stress and protect public health and well-being.
- ECOSYSTEMS & BIODIVERSITY**
Enhance nature's resilience and the services it provides.
- POLICY & FINANCE**
Align with EU policies and access funding for climate-resilient investments.

CLIMATE RESILIENCE STARTS WITH ACTION. WE HELP YOU MAKE IT LAST.

SCIENCE-BASED SOLUTIONS | COLLABORATIVE PARTNERSHIPS | TAILORED APPROACH | SUSTAINABLE FUTURE

Resilient today. Stronger tomorrow. Climate-ready together.

Europe is warming at twice the global average. Extreme weather, floods, droughts, and rising sea levels are no longer future risks: they are present realities affecting infrastructure, supply chains, financial systems, and communities today.

Businesses that act now will be better protected, more competitive, and ahead of regulatory requirements. Those that wait will pay a higher price.

We work with clients to define targeted adaptation strategies and equipping organisations to operate effectively in a changing climate while reducing emissions.

Our approach combines active monitoring of EU-funded research with close tracking of European legislation, so our advice is always current, relevant, and actionable.

- **Format:** *fully customised* service
- **Target Clients:** SMEs and large companies, Central and Local governments, Municipalities
